 99 East Virginia Avenue Suite 140 (1 block east of Central) - Phoenix, AZ 85004

<p>JUNE 05 StonePeak/BEDROSIANS, Mike Lopez, 480-228-5816</p> <p>“Gauged Panels: The Future in Tile” 1 AIA LU with HSW, IDCEC</p> <p>We will teach the newest innovative solutions in the porcelain tile industry: the ANSI 137.3 Standards for Gauged Porcelain Tiles & Gauged Porcelain Tile Panels/Slabs. We will also review the new ANSI A108.19 specifications for the installation procedures for these new large format tiles. We will cover ADA slip-resistance and Environmental Product Declarations.</p>	<p>JUNE 12 Shaw – Vinnie Ives, 480-490-5122</p> <p>1 AIA LU with HSW IDCEC with HSW</p> <p>“Acoustics, Flooring and the Built Environment”</p> <p>Because of trends in the market toward hard surface flooring, multi-story buildings, glass walls and open office, noise has suddenly become a renewed concern for architects, designers, building managers and property managers. This course provides background on how sound affects our health and wellbeing, how sound is measured and tested, and how flooring construction and flooring materials can help attenuate noise in multi-level buildings.</p>
<p>JUNE 19 DYSON, Dale Lee, 602-549-9878</p> <p>1 AIA LU with HSW “The Next Generation of Air Knife Technology and the Evolution of Restroom Design”</p> <p>-Discuss the product comparison and selection for new restroom design -Explain how restroom hand-drying choices can affect the design of the space -List related trends in sustainable building or occupant health that could influence the choice of hand-drying products -Discuss trends in sustainability and energy efficiency and how they impact the environment, with attention to life-cycle impacts or ROI (or both). Discuss universal accessibility design in a restroom environment.</p>	<p>JUNE 26 Hendrick/Lanton Associates, Tony Evans, 480-303-9182</p> <p>1 AIA LU</p> <p>“Uses, Applications & Advantages of Perforated Metal, Wedge Wire and Profile Bar”</p> <p>We will discuss manufacturing methods for perforated metal, wedge wire and profile bar. We'll discuss the benefits and cost-effective design concepts for perforated metal, wedge wire and profile bar. You'll be able to identify the applications and uses for perforated metal, wedge wire and profile bar and how to specify perforated metal, wedge wire and profile bar.</p>

TBL - Tempe Breakfast

NEW LOCATION

**Papago Golf Course
5595 E Karsten Way (Moreland St.)
Phoenix, AZ 85008
7:30am – 8:30am**

No Cost – Breakfast Provided – AIA Members 1-hour Credit

JUNE 13
Boral Siding, AC Galeon, 206-794-2086

1 AIA LU with HSW

Understanding Poly-Ash Siding and the Other Categories of the Exterior Siding Market”

This presentation will be an examination of the new Poly-Ash category of exterior siding. We will identify the various types of exterior siding & material composition & understand the key attributes of each siding category & installation concerns. We will define the Poly-Ash category of exterior siding & performance attributes of the material. Finally, we will identify key applications & installation guidelines for Poly-Ash siding.

JUNE 27
C/S, Bob Foster, 602-265-0127

1 AIA LU with HSW

“Explosion and Pressure Relief Systems”

International Fire Code, NFPA 68 and FM 1-44 will all be discussed for design of pressure resisting and pressure relieving elements. Learn what a deflagration is; how deflagrations are caused; and how to protect buildings against their effects. We’ll cover methods for explosion relief and the codes and standards guiding design for buildings where these hazards may exist.

JUNE 20
Draper, Kathy Greenway, 714-396-9732

1 AIA LU with HSW, GBCI #910000012

“Managing Heat and Light through Exterior Shading Systems ”

At the end of this course the participants should have a clear understanding of:

- The key aims of solar control.
- Heat gain and why exterior shading systems are the most effective way of dealing with it.
- The factors that influence the choice of shading system.
- The benefits of using exterior venetian blinds to control solar gain through vertical glazing.
- The benefits of using the rack arm system to control solar gain and light through skylights and sloped glazing.
