 Come learn about new products!  
 11:45am - 1:00pm  
 No Charge - Lunch Provided - AIA Members 1 hour Credit  
 99 East Virginia Avenue Suite 140 (1 block east of Central) - Phoenix, AZ 85004

<p><b>NOVEMBER 07</b>                  Rockfon, Roxanne Bennett, 949-402-9086  <b>“Suspended Ceilings &amp; Acoustical Solutions using Stone Wool”</b></p> <p><b>1 AIA LU with HSW, IDCEC, GBCI</b></p> <p>Design professionals have a long history of specifying Stone Wool for their insulation &amp; sound absorption needs. Fire resistance, sound resistance, water resistance, thermal resistance &amp; dimensional stability are all features &amp; benefits of Stone Wool. We will discuss &amp; explain in detail the features &amp; benefits of using stone wool acoustical ceiling tiles. There will be an introduction to acoustics along with acoustical challenges &amp; resolutions in commercial buildings.</p>	<p><b>NOVEMBER 14</b>                  Soprema, Walt Hitchcock, 480-694-3433  <b>“Understanding the Critical elements of air and Vapor Barriers”</b></p> <p><b>1 AIA LU with HSW</b></p> <ul style="list-style-type: none"> <li>-Define wall system terms, specifically the difference between an air barrier and a vapor barrier</li> <li>-Explore the science of wall systems, including the potential impact on energy savings &amp; the beneficial health effects of controlling moisture migration into living environments</li> <li>-Explore the detrimental impact of moisture infiltration into building materials &amp; the safety concerns inherent in unsafe structures</li> <li>-Determine the proper wall system to use for a given climate in order to limit air &amp; moisture movement &amp; ensure the comfort &amp; safety of building occupants.</li> </ul>
<p><b>NOVEMBER 21</b>  <b>NO PRESENTATION – HAPPY THANKSGIVING</b></p>	<p><b>NOVEMBER 28</b>                  National Gypsum, Pat Grotlisch, 310-889-8287  <b>“Acoustically Enhanced Gypsum Board Designed for High STC Wall Assemblies”</b></p> <p><b>1 AIA LU with HSW</b></p> <p>Participants of this course will learn about the different sound resilient assemblies available for the design &amp; construction of high STC wall partitions. We will also discuss fire rated assemblies &amp; other wall partitions that require reduced sound transmission from space to space.</p>

**PLEASE MAKE RESERVATIONS FOR THE FOLLOWING SEMINARS:** **Phoenix**

**NOVEMBER 08**  
**Masterwall, Jeff Knight, 541-280-8765**

**“Stucco Cladding Options 2018”**

**1 AIA LU w/ HSW**

Stucco and stucco-look claddings such as Exterior Insulation and Finish Systems (EIFS) are popular options in today’s building vernacular. This program explores how these claddings are used with the new building code requirements for energy efficiency defined in ASHRAE 90.1 (2010) and the 2012 IECC. The program explores air barrier options as well as the new requirements for insulation & drainage options.

**NOVEMBER 15**

**Skyline Design, Mary Blanchard, The Material Collective, 602-515-2736**

**1 AIA LU**

**“Discover New Technologies & Benefits of Decorative Glass for Interior & Exterior Applications”**

- Discuss how decorative glass enhances the built environment
- Examine the emerging technologies expanding the use of decorative glass
- Explore how decorative glass can be used in sustainable design
- Analyze examples of architectural work that relies on decorative glass for performance and innovation

**PLEASE MAKE RESERVATIONS FOR THE FOLLOWING SEMINARS:**

**Scottsdale**
